### COMM ONE 911 NOTIFICATION UTILITY

Product description here which tells about the software and hwhy they should buy ti because it's great and I'm just typing so that I can print the product sheet anhd see how this looks when it's layed out. I don't know if this format is going to look nice, but I'm going to try it and see what yappens.

### 24x7 911 CALL MONITORING

Monitors your phone system 24x7 and then notifies you when a 911 call has been made.

### MULTIPLE NOTIFICATIONS BY EMAIL

911 Notifications are sent out by email. These notifications can go to single or multiple email addresses as needed by your business or organization.

### CUSTOMIZE WITH NAME & LOCATION INFORMATION

Our system allows you to customize the 911 notification system with extension name, building and/or room number so that you can easily identify the location of a 911 call so that you can direct first responders to the correct location when a 911 call is dialed.
